

Canadian Mineral Analysts (CMA) Equipment and Instrument Funding Application

The Canadian Mineral Analysts (CMA) was formed in 1969 to promote the communication of analytical technology in the Canadian mining industry. As part of this mandate, the CMA provides funding for the purchase of equipment and instruments to relevant programs in Canadian colleges and universities.

To be eligible to receive CMA funding for the purchase of equipment and instruments, a teacher or professor in a relevant chemical engineering or analytical chemistry program (or equivalent program) at a recognized Canadian college or university, must submit a separate Equipment and Instrument Funding Application for each request.

Funding Information

The Equipment and Instrument Funding Application will apply only to the school year in which the Application is submitted. All Applications will be evaluated by a CMA selection committee. The number of awards and the amount of each award in any given year will be determined at the sole discretion of the CMA. In the case where the amount of the funding request is larger than the funds available by the CMA to be distributed in any given year, the selection committee may elect to award a portion of the funding request, and will advise the applicant to submit a new Application in subsequent years for additional funding.

Deadline for receipt of the Equipment and Instrument Funding Application to be considered for the 2016-2017 school year is: April 15, 2017. Successful applicants will be notified by May 1, 2017 of the amount of their award.

The completed Equipment and Instrument Funding Application can be submitted by mail, fax or e-mail to:
